Keep your Microsoft 365 data safe using Microsoft Azure cloud and Parablu's BluVault solution

ABOUT PARABLU'S BLUVAULT FOR MICROSOFT 365:

Parablu builds secure data management solutions for enterprises, with a focus on digital privacy. BluVault for Microsoft 365 is designed to ensure secure, automated backup of Microsoft 365 data—including Exchange and OneDrive—to Azure Blob Storage.

WHAT WE OFFER

BluVault for Microsoft 365 provides enterprise-grade protection for Microsoft 365 data through automated policy-based backups. Parablu's integration with Microsoft Azure enables customers to use Azure infrastructure both for deployment and as a backup storage target.

BluVault includes built-in Litigation Hold and eDiscovery features. The solution is designed to ensure data availability by allowing enterprises to quickly find the data they need and download or restore it without delay.

Key features include:

• Integration with Azure Active Directory.

• Automatic mailbox discovery and provisioning.

• eDiscovery searches and data exports.

• Legal/Litigation Hold.

• Industry-grade data encryption during transit and at rest.

Protect your Microsoft 365 data

Ensure that your critical Microsoft 365 data remains secure and protected through BluVault's unique integration with Microsoft 365 and Azure.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
